THE ICE HOTEL

5 Sweden's Ice Hotel is in a small village on the Torne River, close to the North Pole. It is made completely of ice. Every summer the ice melts and the hotel disappears. So the owners need to rebuild it the next year.

10 How did the people in the village get the idea to build a hotel from ice? In the summer the village always had many visitors who came to fish. But the villagers wanted visitors to come in the winter, too. So in 1989 they organized a winter art exhibition in an igloo. Many visitors came to the exhibition. Some brought sleeping bags and warm blankets. They asked if they could sleep in the igloo. That was the beginning of the Ice Hotel project.

15 Since then, instead of one small igloo for the exhibition, the owners build a large hotel every year. They begin to work on it in March. First, workers cut out 5,000 tons of ice from the river and keep it in freezers. Then, in November, a hundred workers start building the hotel. Ten weeks later the Ice Hotel is ready for its first guests of the year.

20 The hotel has 65 rooms. The temperature in the rooms is -5°C . To get a good night's rest guests have to sleep in sleeping bags and wear gloves and hats all the time. Although it is a little uncomfortable, they say it is a very special experience. Guests can eat at the hotel's excellent restaurant, participate in winter sports and even go to an overnight outdoor camp.

- 25 The town expects that 50,000 visitors will come to see the hotel this year. It is open from January until April. After that, as the temperature rises, the beautiful ice building slowly melts and nothing is left but water.
